

# The New Class of RFID Printers

- The Primary Marking Systems H-Class -  
The industry's first purpose-built RFID Printer

## ■ High Performance

- Multi-Protocol EPCglobal Gen 2 RFID
- 32-bit / 200 MHz multi-tasking processor

The innovative H-Class family of printers moves you into a new era of automatic identification by being robust enough for manufacturing, shipping, and processing environments and precise enough for high-resolution graphics and small electronic labeling applications.
